Re: Request for Material Safety Data Sheet (OSHA Form 20 or Equivalent) for:

ITEM: REES & ECKER DILUTING FLUID

CAT. NO.: 6600-16

The Code of Federal Regulations Part 1910.1200, concerning Hazard Communication, explicitly defines the requirements necessitating the development of Material Safety Data Sheets.

According to these definitions the above item either does not contain any specifically hazardous material or the potentially hazardous material is present in such low concentration that the item does not present any immediate threat to health or safety. Although our experience with this item does not indicate that any specific precautions are necessary for its intended general laboratory use, we recommend that it, as well as all laboratory chemicals and equipment, be subject to careful handling, good technique, and proper storage.

If additional information is required, please do not hesitate to contact us.

Respectfully submitted,

*Loren K. Lowy*
