Material Safety Data Sheet

EI XLERATE

1 Product and company identification

Product name Code

EI XLERATE

In case of emergency

1-800-843-6174

Validation date

10/23/2009.

Material uses Manufacturer Floor finish remover Essential Industries, Inc. **Print date**

10/23/2009.

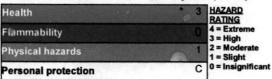

P.O. Box 12

Responsible name

Regulatory Affairs Department

Merton, WI 53056-0012 Phone: 262-538-1122

Hazardous Material Information System (U.S.A.)

A = Goggles B = Goggles & Gloves C = Goggles, Gloves & Apron

2 . Hazards identification

Emergency overview

WARNING!

HARMFUL IF SWALLOWED. CONTAINS MATERIAL THAT MAY CAUSE TARGET ORGAN DAMAGE,

BASED ON ANIMAL DATA.

Harmful if swallowed. Do not breathe vapor or mist. Do not ingest. Avoid contact with eyes, skin and clothing.

Contains material that may cause target organ damage, based on animal data. Wash thoroughly after

handling.

Potential acute health effects due to overexposure

Inhalation Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following

Ingestion Toxic if swallowed.

Skin No known significant effects or critical hazards. Eyes No known significant effects or critical hazards.

Potential chronic health effects due to overexposure

Carcinogenicity No known significant effects or critical hazards. Mutagenicity No known significant effects or critical hazards. **Teratogenicity** No known significant effects or critical hazards. **Developmental effects** No known significant effects or critical hazards. Fertility effects No known significant effects or critical hazards.

See toxicological information (section 8)

3 Composition/information on ingredients

Name	CAS number	%
benzyl alcohol	100-51-6	30 - 60
2-aminoethanol	141-43-5	10 - 30
2-butoxyethanol	111-76-2	10 - 30
SARA 313		

Form R - Reporting requirements2-butoxyethanol

Product name

CAS number

Concentration 16.059 - 16.222

SARA 313 notifications must not be detached from the MSDS and any copying and redistribution of the MSDS shall include copying and redistribution of the notice attached to copies of the MSDS subsequently redistributed.

First aid measures

Eye contact

Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes,

occasionally lifting the upper and lower eyelids. Get medical attention immediately.

Skin contact

In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing

contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get

medical attention immediately.

Inhalation Ingestion

Move exposed person to fresh air. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical

attention immediately.

Protection of first-aiders

Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Get

medical attention immediately.

No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be

dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing

thoroughly with water before removing it, or wear gloves.

4. First aid measures

Notes to physician

In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

5. Fire-fighting measures

Flammability of the product

In a fire or if heated, a pressure increase will occur and the container may burst.

Extinguishing media

Suitable

Use an extinguishing agent suitable for the surrounding fire.

Special exposure hazards

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action

shall be taken involving any personal risk or without suitable training.

Hazardous thermal decomposition Decomposition products may include the following materials:

products

carbon dioxide carbon monoxide nitrogen oxides

Special protective equipment for fire-fighters

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA)

with a full face-piece operated in positive pressure mode.

6. Control and preventive measures

Storage

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Ingredient	Exposure limits	
2-aminoethanol	ACGIH TLV (United States, 1/2008). TWA: 3 ppm 8 hour(s). OSHA PEL 1989 (United States, 3/1989). TWA: 3 ppm 8 hour(s). NIOSH REL (United States, 12/2001). TWA: 3 ppm 10 hour(s). OSHA PEL (United States, 11/2006). TWA: 3 ppm 8 hour(s). TWA: 6 mg/m³ 8 hour(s).	
2-butoxyethanol	ACGIH TLV (United States, 1/2008). TWA: 20 ppm 8 hour(s). OSHA PEL (United States, 11/2006). Absorbed through skin. TWA: 50 ppm 8 hour(s).	

Personal protection

Respiratory None required. However, use of adequate ventilation is good industrial practice.

Hands

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when

handling chemical products if a risk assessment indicates this is necessary.

Skin

Personal protective equipment for the body should be selected based on the task being performed and the

risks involved and should be approved by a specialist before handling this product.

Eyes

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is

necessary to avoid exposure to liquid splashes, mists or dusts.

Methods for cleaning up

Small spill

1% pH:

Solubility

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble or

absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a

licensed waste disposal contractor.

Waste disposal

Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Specific Gravity:

1.01 gm/ml

7. Physical and chemical properties
