INFORMATION TELEPHONE NO. (216) 566-2902

Section I -- PRODUCT IDENTIFICATION

MATERIAL SAFETY DATA SHEET FOR COATINGS, RESINS AND RELATED MATERIALS by U.S. Department of Labor 'Essentially Similar' to form OSHA-20)

PRODUCT NAME * - Trade Mark
High Solids Primers.
PRODUCT NUMBERS AND COLORS
E61 A 700 ULTRAKEN* 3.5 VOC Primer, Gray.
E61 R 702 KEN-FLASH* Prime H.S., Red Oxide.
PRODUCT CLASS
Alkyd Paint

Section II -- HAZARDOUS INGREDIENTS CM 80 64742-95-6 Light Aromatic Naphtha 5-10 100 64742-94-5 Beavy Aromatic Naphtha 0-5 50 100 100 123-86-4 n-Butyl Acetate. 5-15 50 100 12463-67-7 Titanium Dioxide. 0-5 10 No ingredient in this product is an IARC, NTP or OSHA listed 3.8 PPN PPH 16.0

** For specific percent hazardous ingredients in each product, see Section X

Section III -- PHYSICAL DATA

VAPOR DENSITY -- Heavier than Air UME WT/GAL 12.5 EVAPORATION RATE -- Slower than Ether VAPO DILING RANGE (F) % VOLATILE VOLUME BOILING RANGE (F) 237 - 415 Section IV -- FIRE AND EXPLOSION HAZARD DATA

FLAMMABILITY CLASSIFICATION FLASH POINT 65 F PMCC LEL 0.7

RED LABEL — Flammable, Flash below 100 F

EXTINGUISHING HEDIA

Carbon Dioxide, Dry Chemical, Foam

UNUSUAL FIRE AND EXPLOSION HAZARDS

Keep containers tightly closed. Isolate from heat, electrical equipment, sparks, and open
flame. Closed containers may explode when exposed to extreme heat. Application to hot
surfaces requires special precautions. During emergency conditions overexposure to
decomposition products may cause a health hazard. Symptoms may not be immediately apparent.
Obtain medical attention.

SPECIAL FIRE FIGHTING PROCEDURES

Full protective equipment including self-contained breathing apparatus should be used.

Pull protective equipment including self-contained breathing apparatus should be used. Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat.

THRESHOLD LINIT VALUE -- See Section II

EFFECTS OF OVEREXPOSURE

ACUTE: Overexposure causes eye, skin and respiratory irritation. May cause nervous system depression accompanied by headache, dirriness, nauses, confusion and staggering gait. Extreme overexposure may result in unconsciousness and possibly death.

CHRONIC: Prolonged overexposure to ingredients in Section II may cause adverse effects to the liver, urinary, and blood forming systems.

Rats exposed to titanium dioxide dust at 250 mg./m3 developed lung cancer, however, such exposure levels are not attainable in the workplace.

Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

EMERGENCY AND FIRST AID PROCEDURES

If INMALED: If affected, remove from exposure. Restore breathing. Keep warm and quiet.

If on SKIN: Vash affected area thoroughly with soap and water.

Resove contaminated clothing and launder before re-use.

If in ETES: Flush eyes with large amounts of water for 15 minutes. Get medical

Section VI -- REACTIVITY DATA

STABILITY -- Stable
HAZARDOUS DECOMPOSITION PRODUCTS
By fire: Carbon Dioxide, Carbon Monoxide
HAZARDOUS POLYMERIZATION -- Will Not Occur

Section VII -- SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED Remove all sources of ignition. Ventilate and remove with inert absor-WASTE DISPOSAL METHOD

WASTE DISPOSAL METHOD

Vaste from this product may be hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261. Vaste must be tested for ignitability and extractability to determine the applicable EFA hazardous waste numbers.

Incinerate in approved facility. Do not incinerate closed container. Dispose of in accordance with Federal, State, and Local regulations regarding pollution.

Section VIII -- PROTECTION INFORMATION

PRECAUTIONS TO BE TAKEN IN USE

Use only with adequate ventilation. Avoid breathing vapor and spray mist. Avoid contact with skin and eyes. Wash hands after using.

Protect against dust which may be generated by sanding or abrading the dried film.

VENTILATION

Local exhaust preferable. General exhaust acceptable if the exposure to materials in Section II is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, 1910.108.

RESPIRATORY PROTECTION

If personal exposure cannot be controlled below applicable limits by ventilation, wear respiratory device approved by NIOSEM/MSHA for protection against materials in Section II.

PROTECTIVE GLOVES

Wear gloves which are recommended by glove supplier for protection against materials in

Vear gloves which are recommended by glove supplier for protection against materials in Section II.

EYE PROTECTION

Vear safety spectacles with unperforated sideshields.

Section IX -- PRECAUTIONS

DOL STORAGE CATEGORY -- 1B

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING

Contents are FLAMMABLE. Keep away from heat, sparks, and open flame.

During use and until all vapors are gone: Keep area ventilated - Do not smoke
Extinguish all flames, pilot lights, and heaters - Turn off stoves, electric tools and

appliances, and any other sources of ignition.

Consult NFPA Code. Use approved Bonding and Grounding procedures.

Keep container closed when not in use. Transfer only to approved containers with complete
and appropriate labeling. Do not take internally. Keep out of the reach of children.

OTHER PRECAUTIONS

This coating contains materials classified as nuisance particulates, for example

OTHER PRECAUTIONS
This coating contains materials classified as nuisance particulates, for example titanium dioxide, calcium carbonate, etc. (see AGCHE TLV List, Preface and Appendix D), which may be present at hazardous levels only during sanding or abrading of the dried film.

Intentional misuse by deliberately concentrating and inhaling the contents can be haraful

This Material Safety Data Sheet conforms to the Hazard Communication standard,
29 CFR 1910.1200(g)(4), for similar complex mixtures.
The above information pertains to this product as currently formulated, and is based on
the information available at this time. Addition of reducers or other additives to this
product may substantially alter the composition and hazards of the product. Since conditions
of use are outside our control, we make no varranties, express or implied, and assume no
liability in connection with any use of this information.
